Problem Statement

- India has a **huge unorganized labour market**
- Companies struggle to find **verified, skilled manpower**
- Contractors waste time sourcing labour
- Workers face **job uncertainty, delayed payments, and exploitation**
- No single digital platform connects **Labour + Contractor + Company**

Benefit from this platform

1. Workers (Labourers / Skilled Manpower)
2. Contractors (Those who take work)
3. Companies / Owners / Vendors (Those who give work)

We have created a **business model** where all three benefit from each other. Today, one of the biggest problems in the market is the **lack of quality, skilled, and professional labour and vendors**. This platform will work as a bridge to solve this problem efficiently.

Benefits for Each Stakeholder

A. Labourers (Workers)

- Regular job opportunities
- Fair wages & transparent payment
- Verified companies → less exploitation
- Work across India
- Skill recognition & growth

B. Contractors

- Easy access to skilled labour
- Work tenders without middlemen
- Reduced operational costs
- Faster project execution
- Higher credibility

C. Companies / Vendors

- Reliable manpower
- Reduced hiring time
- Quality assurance
- Faster project completion
- Pan-India workforce access
